AFTER THE EVENT

You can view your attendance through the Wisconsin Registry App after the event. You may add attendees by their ID Numbers at this time.

Attendees who do not have a Registry ID number can be added to the roster by accessing your event at wiregistry.org
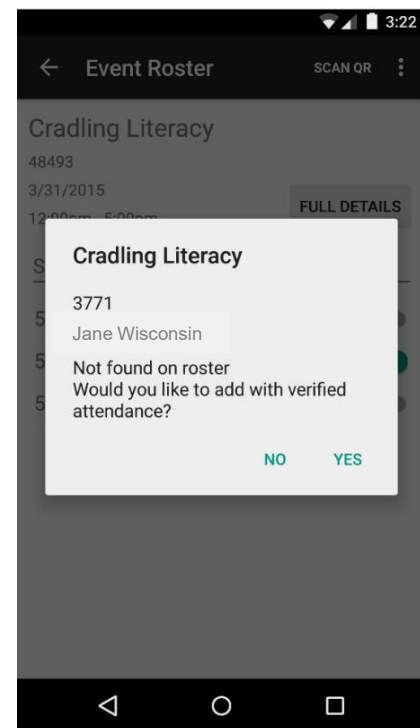

Q. What if my event has multiple sessions?
A. Attendees are given credit for the entire event when entered on a roster. If your event is divided into multiple sessions, you are encouraged to keep track of the attendance for each session by using a paper form. At the last session, you may use the app to enter persons who have attended the entire event.

Q. What if an attendee does not know or have a Registry ID Number?
A. You can handle this situation the same way you have always done. Some suggestions are:

- Ask the attendee to sign up for a Registry account and email the ID Number to you after the training. Add the attendee's ID Number to the roster by using The Registry App or accessing your event at https://wiregistry.org/
- Request attendees have a Registry ID Number prior to your event. This can be done when setting up your event.
- Use the paper attendance form and enter the person's information after the training by accessing your event at https://wiregistry.org/

Q. Who can I contact for technical assistance?
A. You may email the Wisconsin Registry at support@wiregistry.org or call 608-222-1123.
