Wisconsin Registry

The Wisconsin Registry has been Wisconsin's professional development recognition system for early care and education professionals since 1991. A Wisconsin Registry certificate is required for all teachers, directors and administrators in licensed child care programs. A Wisconsin Registry Certificate and Learning Record acknowledge and highlight the training, experience and professionalism that are vital to quality early care and education, honoring each recipient's unique training and background.

Benefits of a Registry Membership

Wisconsin Registry Certificate

This document lists important information including your Career Level, all regulated care positions preliminarily qualified for, years of experience, and more. Registry certificates are accepted by Wisconsin state licensing specialists.

Professional Development and Employment Opportunities

A Wisconsin Registry profile provides a summary of a member's education and training related to the field of early care and education. Current members can login to print a variety of reports to add to any resume or use for professional development planning.

Document Organization

The Wisconsin Registry stores a member's education and training information in case documents are lost or needed for licensing purposes. A member account includes the upload of official college transcripts, high school documentation and a full list of verified education and related training.

Eligibility

A Wisconsin Registry membership is required to be eligible to commission for a Registry Credential or to become an approved Trainer or Technical Assistance Professional.

Participation in Other Programs

Membership with the Wisconsin Registry allows individuals and organizations to participate in other programs such as YoungStar, T.E.A.C.H. and REWARD.

Receive a Registry eID

A Registry eID helps ensure that you receive immediate verification for the training events you attend. The eID lists your name, Registry ID number, and a QR code that allows trainers to quickly scan your card and accurately take attendance.

Features of the Wisconsin Registry

Membership

Access to online benefits, resources, and reporting features

Program Profile

Review and update center information including employee and center details

Professional Development Approval System (PDASystem)

Supports and promotes quality training and technical consultation opportunities
