Training Solutions

Español

Welcome to the latest edition of *Training Solutions*,

We have some exciting system upgrades to share with you that should make for a better experience when accessing the PDASystem! Also included in this month's newsletter is a reminder about the 2023 PDAS Summit. Make sure to save the date: September 21, 2023!

As always, please [contact us](#) for any questions you have regarding the news and information below.

Best Regards,

Danielle Earley, Director of Operations

Ashley Salzwedel, Professional Development Coordinator

PDASystem Upgrades

We have some exciting upgrades to share with you about the PDASystem! These upgrades went into effect today (April 28). The changes highlighted below are:

- HTML Addition (Adding events to your own website!)
- Enhancements to all Event and Roster functionality
- Enhancements to Rosters for Events using Online Registration

HTML Addition

All Training Sponsor Organizations now have HTML available on the **Settings Tab** so you can now put a calendar of Registry training events on your own website!

To access this feature go to the Settings Tab of your profile and click the **Show Events on Your Website** button.

This will bring up the Training List Widget, which will feature a HTML code that you can copy and paste to feature trainings on your own website!

Training List Widget

Copy and paste the code below to allow individuals to register for your available trainings from within your own website
Adjustments to the height and width of the iframe may be required to fit your site layout.

```
<iframe frameborder="0" title="Training Events" width="400" height="300" src="https://wistaging.newworldnow.com/myregistry/v7/trainingcalendar?orgid=1383&daysout=90&sort=eventstartdate&showfullclassroom=no&locationtype=all"></iframe>
```

Additional List Filters

You can customize the user experience by adding additional url filter parameters to the url found in the iframe src tag above.

Any desired filters added must follow a specific format in order to work correctly and must all be in lower case.

filtername=value

For multiple filters please use the following format.

Example: /trainingcalendar?org=11110&showfullclassroom=yes&daysout=120

Filter options are as follows

daysout=numberofdays

Example: daysout=120

sort=alphabetical or eventstartdate

Example: sort=eventstartdate

showfullclassroom=yesorno

Example: showfullclassroom=no

locationtype=typeoflocation

Example: locationtype=webbased,classroom,correspondence,blended,blendedwebbased,blendedcorrespondence,outofstate

Multiple location types may be searched by adding additional location types to the url separated by commas like so.

Example: /trainingcalendar?locationtype=classroom,correspondence,blended,blendedwebbased

Enhancements to Event and Roster Functionality

There are two features to help improve Event and Roster functionality!

The first is an event roster will now be paged instead of listing everyone on one single page.

134546	Gearytest, Amber	Agency Staff	<input checked="" type="checkbox"/>	paid	<input checked="" type="checkbox"/>		
97705	Habermantest, Jessica	Agency Staff	<input checked="" type="checkbox"/>	paid	<input checked="" type="checkbox"/>		

Previous **1** 2 3 4 Next

Email Attendees

The next feature is the ability to search individuals on a roster by attendee name, registry ID, and email address! On your roster page, type in any of those three filters in the appropriate text box to find an individual.

The screenshot shows the 'Active Roster' interface. At the top right, there is a button for 'Removed Attendees (7)' and a '+Attendee' button. Below these are two search input boxes: 'Search by Registry ID' and 'Search by Name or Email Address'. At the bottom, a table header is visible with columns: Registry ID, Name Address, Phone, Type, and Completed.

Roster for Events using Online Registration

Two features were added to improve functionality for rosters for events using online registration as well.

The first of these features is that rosters will now display the registration date for each attendee.

The screenshot shows the 'Active Roster' interface with a list of attendees. At the top right, there is a button for 'Removed Attendees (0)', a 'Verify Attendees' button, and a '+Attendee' button. Below these are two search input boxes: 'Search by Registry ID' and 'Search by Name or Email Address'. The table below has columns: Registry ID, Name Address, Phone, Type, Registered, Paid, and Completed. Each row includes a 'Registered' date and a 'Completed' date. Action icons (refresh, edit, delete) are present for each attendee.

Registry ID	Name Address	Phone	Type	Registered	Paid	Completed	
14622	Hebertest_Casi			04/13/2023			
6708	Kobertest_Melissa			04/13/2023			
2682	Kochtest_Staci			04/13/2023			
176780	Up_Wi			04/13/2023		04/13/2023	

When viewing the session details for your event or conference session, you will be able to see the total number of attendees on the roster, as well as the number of verified attendees.

Reminder: 2023 PDAS Summit

Don't forget about the 2023 PDAS Summit! This year's in-person event will be held on Thursday, September 21 at the Harley Davidson of Madison. We look forward to seeing you there!

This year's Summit looks to continue the discussion from previous years Summits, and explore how to create a welcoming, engaging, nurturing, and supportive learning environment. This will be an in-person event you won't want to miss!

Look for more information on the 2023 PDAS Summit in future communications.
