

## Video Recording & Photo—Credential Student Agreement

**This is a required form. Failure to submit this form with your credential portfolio will result in unsuccessful completion of the commission process.**

Video clips and/or photos are included in your credential portfolio because it adds richness and valuable context to the evaluation of your teaching. However, because videos and photos will almost always include identifiable images of children, their use carries some significant ethical and legal responsibilities. For reasons of privacy and safety, many parents are concerned about their children appearing in videos and photos, especially any that might be used outside the classroom. For both legal and ethical reasons, *those concerns must be respected at all times*. Doing so requires you to adhere to the following guidelines:

- 1. Parents and guardians must be asked to consent to having their child appear in a video or photo.** Permission from a supervisor or director to video record and take photos must also be confirmed.  
Supervisor/Director signature: \_\_\_\_\_ Date: \_\_\_\_\_
- 2. Before creating a video or taking a photo, you must guarantee the following:**
  - Any children whose parents did not grant permission to appear in the video recording or in photos is identified. To avoid including those children in the video or photo, the camera must be positioned to not capture their images. If necessary, focus the camera on you teaching the activity, or on the backs of the children or the children's hands. Any faces captured of children not given permission to be in the video or photo must be blurred out. *Important note: Non-consenting children must not be excluded from the learning activity.*
  - Any student work you submit as part of the credential portfolio must not contain any identifying information about the child, including but not limited to, the child's name, any clothing that identifies the child or the location the video or photo was taken, or any items in the environment that can pinpoint the location of the video recording or photo.
  - The locator is turned off on your device before video recording or taking the photo to maintain confidentiality.
- 3. Once created, video clips and/or photos must be submitted to the Commissioner as part of your credential portfolio requirements and can be shared with your course instructor, but must not be shared or distributed beyond that.**
  - Video clips and photos are created solely to be used as part of your credential commission.
  - No part of a video or photo (whether or not included with your submission) should be used for any other personal or professional purposes, including but not limited to, being posted online for purposes outside the commission process, shared with your family or friends, shared with the children's families, posted on social media, included in a job portfolio, or used within a presentation.
  - **Anyone suspected of misusing video clips and/or photos will be reported to the Wisconsin Registry. This violation falls under the FERPA laws and are subject to an investigation. Other possible civil and criminal investigations and/or penalties can apply.** *Remember: Once you have shared the video or photo electronically with anyone, you have effectively lost control of it.*
- 4. Once you have received confirmation that you have successfully completed the credential commission requirements, video clips and photos must be deleted.** This includes not only the segments submitted, but any photos or video material created as part of your effort to prepare for and complete the credential portfolio requirements.

---

I have read the above guidelines and agree to follow them.
